

Call Your Name, Be With Your Atma, Call The Numbers So That No One Can Disturb The Numbers That You Have For Yourself!

The Prayer Part I

This Prayer has to come for this Prayer talks about Prema Satya Dharman.

The Time has come for ABC to play a bigger role.

You will never understand this young man.

He has played his role as a child.

You have played your role as a Mother, XYZ, and you have played very well, My child.

I thank you for looking after him for this is the only child that I look after for one whole day.

Yes, I played the role of a Mother.

He will grow.

He has his own mission not only for Mankind but for the World.

At the right time you will find animals liking him without he even knowing those animals.

He had to come today to make Me to request G to have this Prayer.

My children, from time to time Man makes many changes not only to himself, with his own character or thought or with his own progress on Divine Mother Earth.

But he brings about major changes outside him and at the same time sacrificing what is within him.

Man is sacrificing his memory to the computers and other electronic equipment that are being discovered.

Every day, it's no more in years.

Now it has come every twenty-four (24) hours there is a difference because the modern computers are being used by millions of human beings and all of them are trying to bring about a new change, a new finding of a software which will bring them the wealth that they need.

It is a big competition.

And as these discoveries are being made for the good of Man you have to, My children, even give the opportunity to human beings who will look the negative way.

They begin to bring about the destruction of these software which have come from the progress of Man.

And now it is a cyber-war that is taking place.

Be very careful of the wealth all of you have.

Keep it very safely.

Be careful of banks.

It's better to be in deposit boxes even though you may not get the interest.

It is not the interest, My children.

Interest is no more.

It is the savings or the capital that is most important.

You must spread your wealth and keep them in different places even sometimes your own home.

Yes, because what is going to take place in the next six (6) months and more individuals will lose their bank savings.

Wealth will be taken away just by typing numbers.

See, My children, how important numbers are.

This is the reason why I was teaching you 1,2,3,4,5,6,7,8,9 and 0.

Now you have come to the 'World of Numbers', not your name is no more.

It's all numbers.

Look at your credit cards, look at your accounts, it's all numbers.

And these numbers can be played with, My children.

That is the reason why you should keep calling your name and then say the numbers so the numbers remain with you and they will disguise themselves and they will not allow those individuals who will want to take away the wealth that is hidden behind these numbers.

Yes, My children for when the Soul is there the numbers will not move.

Your numbers will only belong to you and no one, whoever much they may type the number, it will always change.

You did not know why I was teaching you numbers, My children, you thought it was just plain numbers.

No, because you are getting into the next step where Mankind, rich individuals will lose everything that they have and they will not know how to run their lives.

Every time Mother Earth makes Her change She brings about a change in the human beings too.

And the human beings do not want to limit their Speed.

They want to beat Time itself.

It's not possible, My children.

I show you the Direction.

When the Direction is shown it is up to you to bring about the events that you want to perform for your future, for your progress and that is Speed, My children.

Time will travel at its own Time.

It will never listen to anyone.

But you should not try to beat Time, thinking you will be able to beat.

No, My children.

Time will be there.

You can just go up to Time and you have to hold on.

So it is dangerous if you start speeding your actions on Divine Mother Earth.

Be careful.

Go at the right Speed, you will never miss.

Pray to Time.

That is the reason why I have taught you to pray to Time, look at Time.

That is the reason why you place a clock at your entrance.

As you go out and as you come in on both sides of your door you must have, just to remind you this is the Time you are leaving, this is the Time you have arrived.

Listen very carefully.

I do not talk to you, I talk to your Atma or the Alma or the Soul or the Life-Force that is within or your Jiwa, you may call it in different ways through the different religions and languages.

Please, My children, the Earth is making tremendous change.

What you have not seen the worst of disasters that Man will call it 'disaster' but for Divine Mother Earth it's just a change like how you change your clothes.

You have the right to change your clothes, don't you think the World, Divine Mother Earth also like to change Herself to look better?

For who has brought that stimulant to Mother Earth to change?

Mankind.

They have started destroying whatever they want to destroy on Divine Mother Earth and make their homes better by clearing jungles, by cutting earth, by bringing about dams.

All these changes are brought about by Mankind, My children.

Look, the changes when it's brought about by Man or any other species on Divine Mother Earth then Mother Nature and Mother Earth makes their own changes.

Many islands will disappear, countries will break up by the earthquakes itself, by the changes in the weather.

Don't blame the storms, don't blame the floods.

You have made dams in places where there shouldn't.

Mother Earth knows exactly how to flow the rivers.

My children, the Energy that you want is in the Air, My children.

That's the answer.

Wait till Mankind bring about that change in the electronic world where Air is used as the Energy.

There is enough Water in the Air, My children.

He will invent a cup, when you press it, it will cool, water condenses, you drink, you get pure water.

Mankind only thinks of himself.

He never thinks of the animals which need water too.

Look how I bring about changes but when you take a Physical-Form like yours human being, you bring about the five (5) elements together and in different proportions and you are formed.

And once you have taken a human form you have to go through the process of human living and your Physical-Form has to change.

You can't tell, 'I must remain young all the time'.

No, My children, you have to allow the changes to take place for you are not permanent.

Only Existence, the Divine is Permanent and the Soul is Permanent, nothing else.

Put the weather machine, My son.

It is off.

You just on it, My son.

All will be fine.

Mankind is not paying respect to the five (5) elements which you are composed of.

You should, My children.

Learn to live with them.

You have been given the five (5) senses so that you can interact and communicate with the things around you.

Do it well.

In the same way I brought about a change in the heart of G.

You have to undergo the different changes that you bring about through your food and drinks that you take.

It is the food and the drinks that changes you, My children.

You must be careful with what you take within. It is the food and the drinks and again the Air that you take in and out that is important, not the vehicles and the houses and the dresses that you want to use and entertain others not Yourself.

But with the food and drinks and the Air you build Yourself up.

It is the food, the drinks and the Air that is bringing about the destruction of Mankind.

You are destroying Yourself for you are not careful with your Physical-Form.

Your Atma is always there.

It is never young, neither old.

It stays as a constant.

The Atma comes to Divine Mother Earth as a visitor and it has the Power to take any form it wants.

Your Atma decided to take the human form and there you are, you are present now.

My children, perform your duties to your Parents and Parents perform your duties to your children.

This is a must.

Call your name, be with your Atma, call the numbers so that no one can disturb the numbers that you have for Yourself.

And love the five (5) elements and your five (5) senses so that the senses bring the right sensations to your brain, so that the right decision is made by your Mind but with the help of your Atma within you.

Blessings from Jesus, My children.

Anandam.

The Prayer Part II

Did you see the string that G was holding was there and that too got burnt but it was immediately tied by one person at the last moment?

Did you notice that?

Yes, I saw one string was burnt.

Yes.

That is because when the last mould was being poured other Souls should not hold it.

There you have to be at a different level, My child.

If that was not done three of them would have sacrificed themselves.

Their lives.

Always when a symbolic Statue of an Atma is being made it is very important that all the Prayers have to be done in the correct way.

And those individuals who are performing that melting and then pouring that hot metal into the mould they all were on trance.

You must understand.

They were at a different level, My child.

Many of you never took photographs at the right time, then you would have seen all those happenings.

More would be told at the right time.

So where would the 'Atma Murthy' be going?

I will let you know, My child when you go there.

It will be told where they will go.

You have already seen that country the 'Atma Murthy' are spread all over by the Princess herself.

You would have seen it even at the airport.

Yes, with some alterations.

That, the permission was got from G.

It is not clasping but it has been removed.

That's nothing, otherwise everything is the same.

Everything for the Atma will be done but not in a grand style.

It must go very slowly spreading.

People must start calling their Atma, be with their Atma.

And also they must pay respect to their Parents.

And how do you pay respect to your Parents?

It they are there then you can go and see them.

But otherwise you have to remember them for it is the Soul that is being remembered, not your Parents as such.

It is the Souls of your Parents.

That is why 'Soul Worship' has been there from the time Mankind was created in the twenty-one (21) different places.

It is only now Man has forgotten the 'Soul Worship'.

Divine blessings, My children.

Divine blessings.

The Divine Mantra, My son.

Analyse the Divine Mantra and the Atma Mantra, you have the answer for all human beings on Divine Mother Earth.

You have paid respect to the Universal Forms and the Forms that you have to respect in every human being; Love, Truth and Righteousness.

You must always remember your treasure, the most important treasure is your children or your next generation.

All other wealth can get lost but don't lose your family.

If you are a husband see that your wife is there.

If you are a wife see that your husband is there.

And all the children are looked equally with respect and fairness.

Anandam.

My shawl?

I thought there will be lots of blankets here.

Very clever.

Anandam.
