

Today, There Are More Souls That Come To Hear The Prayer Than When I Started & It Has Been Increasing Not In Hundreds Or In Thousands But In Millions!

Divine blessings, My children.

Today there are more Souls that come to hear the Prayer then when I started, and it has been increasing not in hundreds or in thousands but in millions.

Most of them who have come today are not from Divine Mother Earth, they are from other Universal Forms trying to understand how Souls live in different species and in their own Form and as Unseen Forces.

What do they do?

How do they communicate?

For the language the Souls use is the same in the whole Universe, for the Universe is within the Divine.

It's the One.

The 'One' can become many, and the many when they join together they become 'One'.

That is the beauty of Creation.

The Creator is not a 'masculine' or a 'feminine' individual.

The Creator is on His own.

He can take any form at any time.

And whether it is good or bad, whether it is the Unseen Forces or the different species that are existing in the Universe or they are the Souls themselves, not taken any form, they all are the same Existence or Divine.

The Divine comes in the different forms to keep creation alive.

Once the Creator has created then the creation must be kept alive, My child.

And everything that is created must come to an end, a Dissolution.

Then, Creation starts all over again.

It is a Universal cycle of the Soul.

They take different forms in different parts of Divine Mother Earth for they have come to realize and go back again to Existence.

To realize from where they have come then they have to find their way to Existence or the Divine.

This cycle of Life, Creation and Dissolution goes on and on.

The Divine never wants to stop it for there must be activity in the Universe, for the Universe to remain functioning or to be alive.

Activities must be there.

When activity ceases to exist then Dissolution of the Universe has to happen.

But the Divine does not want that to take place.

It is Mankind on Divine Mother Earth who are in control of other species, for the human species is of very high nature, with the qualities too, to differentiate, to understand, to come to a decision and to act.

All other species they can't, My children.

They do not have the Power to think before action can be taken, taking place.

For all action must take place with the Power of thinking.

Only the human species have the Power to do things voluntarily.

All other species, things happen involuntarily.

They can be trained to only a little extend to act voluntarily.

Everything in the Universe is always changing, nothing that doesn't change.

The only Truth that doesn't change, that always exists is the Atma or Soul and the Divine.

I sit in front of you, you see Me as a human being.

I make use of just that one part of this human being, His vocal cord to address you, by I address the Souls, not the Physical-Form of the species that you are in, for you will not understand Me.

By I do so through the human vocal cord is just to give the human beings that comfort that I am talking in a language that they either have not studied or they know.

That gives them the pride that He is talking in a language that we human beings understand, thus the Souls, they Love the human beings, no, My children.

It is not the Souls that Love human beings, the Souls Love every other Soul in the Universe not just Father, Mother, grandparents or the children or grandchildren or friends.

The science of understanding the Souls is a science by itself, for it cannot be compared with any other science of knowledge that human beings have created.

It is far above.

You can't understand, My children.

For the Soul can take any form in the Universe, leave alone species on Divine Mother Earth.

When the Divine has given the Soul that Power of creating itself to whatever it wants.

And it can take many forms, My children, at the same time and in different parts of the Universe, leave alone in different parts of Divine Mother Earth or even in the same place or even in the same family.

See how Powerful the Soul is.

If the Atma is that Powerful then why don't human beings use the simple Mantra or Prayer of calling their name?

And coming to know their Soul or Atma within them.

And once they come to know their Soul within them, then don't you think, they can request their Soul to create whatever they want.

Look how stupid human beings are?

Human beings are only there and at this moment of Time, this age, they just want comfort, they just want pleasure, they just want everything in an instant.

They want everything that is there on Divine Mother Earth.

Not knowing that they can't make use of them at any one time.

They can only enjoy that pleasure of a little that they have around themselves.

For example, 'If they want to have a plane with all the golden luxuries inside the plane, and when the plane is flying they have nothing else but the plane. They failed to realize will this plane touch down? They are enjoying the luxury within, but they have forgotten that they are in the Air and that anything can happen. A storm, an explosion, a malfunctioning of the gear that will crash the plane either into the sea or on land and get burnt. But still when you are in, you are only thinking of the luxury. Your Mind is not thinking of when we will land. Will the landing be safe? No. What happens? Everything is blocked by what you call as illusion. A mental block comes. It blocks to make you understand that you have to land safely. That you must pray to the Divine that you land safely. Then only you can enjoy the next step that is blocked. All what you are looking is what is inside, enjoying the luxury that is being provided to you. None of them can save you if the plane fails to land in the proper way'.

Illusion takes you away, My children.

It's called Maya.

A change of the opinion is brought about by that unknowing Divine force within you, it can keep changing at any time.

It is this Force that makes you very happy or it makes you very dull.

You are unable to sense the joy.

You are unable to sense the sorrow too.

All that human beings look at is one side.

They do not see what is on the other side.

Even the well known human beings, you are unable to judge it by your Mind.

That brings to a discussion what you see through your senses.

Because your senses have brought the message of the side that you are witnessing at that time.

But it doesn't know what is behind on the other side.

Or what is on the right hand side or on the left hand side.

All those are not experienced by you, but you must learn to experience them too, My children.

That is what is called as intuition.

You are able to have a feeling that there is something wrong on the other side or on the right or on the left.

But you do not know the Truth for your senses are only getting the message from the side you are witnessing.

You must try and make use your senses to go all around, My children.

It is another science of senses.

It is a science that makes you see on all sides, makes you hear on all sides, make you smell on all sides, make you touch on all sides, and make you taste on all sides.

You should be able to get the taste that comes from behind.

You should be able to hear what is coming from behind.

You should be able to smell what is coming from behind.

You must be able to touch from what is behind.

And you must be able to see from what is behind, all around, which human beings of today are unable to do and they will never be able to do.

My children, all the plants, the animals and the birds and all the other species are able to listen to Me because I talk to the Souls or the Atmas; you may think they are not listening but they are.

It only takes one Atma to take the Message to all the Atmas, thus reaching the Divine.

From Time to Time you do not know, which Soul is playing with which Soul, it's all a game for the Souls and you become the tool, because they have taken your Form.

But they don't try to exchange and move about like your Soul gets into Mine and Mine into you.

They don't do that unless it is absolutely necessary for some reason, some very Powerful reason then there is a Soul exchange that takes place, not otherwise.

You can't even name in percentage, My children, in just a few dots here and there in the whole Universe otherwise every Souls is given its own Power.

Today, the modern equipment that you have to transmit electronic waves in so many ways to any part of Divine Mother Earth and now you are going beyond the Earth's boundary.

It's all waves, My children.

Energy Force that travels.

You are polluting the atmosphere of Divine Mother Earth with all types of electronic waves, sound waves, name it and it is there.

What is today that gives you a pleasure will not give you a pleasure in the next few years, My children.

It becomes obsolete and a new form of pleasure comes up like the way your phone system works, My children.

You used to talk through wires connected from your house to the exchange and from that exchange to your friend's place where you want to talk to.

Today you talk with airwaves.

Your hand phones have come in.

You can send photographs and videos.

You can send messages, Internet messages, you have got Skype.

You got all types of ways to communicate but are these communication safe and sound?

No, My children.

You are becoming a prisoner.

Your freedom is being taken away.

But human beings talk of human rights and freedom, where is the freedom?

If I know what you have talked even one year ago and tell you, 'These are the words that you used'.

Is that freedom?

Is it what you have been born as a human being?

To live with Trust.

To Believe another.

To have Faith.

It's all gone, My children.

Today, you are your own prisoner.

By you using your hand phone, you are actually writing your diary.

All these machines have their recording script.

Today, you may say it is for one year, two years, five years, ten years but there are new machines that are coming, My children which will pick up your voice when you are a child, when you were delivered by your Mother and you were crying, yes.

By voice detection machines which are so powerful, they will pick exactly your voice.

They will pick you out with your body movement.

They will know you by every part of your body.

They can see you from anywhere they want to see you, My children.

Even from the satellite station up above they are able to see right here.

Where is freedom, My children?

Are the human rights people fighting for this freedom?

No.

It is only when you go within Yourself and live with Love, Truth and Righteousness, live with your Atma or Soul then you will get freedom.

Because one Atma will never talk ill of another or even good of another, it will leave you to act as you want.

That is freedom.

It will not interfere with another Atma or Soul.

Now all these Souls that have come, they have come to help the Souls that are in the different species on Divine Mother Earth.

And to bring them to understand that they are Atmas.

That they must live together.

The Souls have come to correct them.

To stop being angry, to be jealous, to have hatred or greed or the worse enemy of Man is ego.

They want to remove all of these.

To bring into you Love, Truth and Righteousness.

How will you describe Love, My child?

It is the confidence that you have in Yourself, that is Love.

Confidence is Love.

Where you should not give away Dharam, Dharam is Righteousness.

There is no equivalent word of that word Dharam in the English dictionary, My child.

It is true Love, which comes to a Soul and the Soul gives it to that Mind, the confidence.

That is the right way to perform the action that you want to perform that is Dharam.

With full Faith in the Soul and the Divine.

The Time is now when all over the World, the Soul worship will start.

The dependence on the Soul will come.

You want to be in the 'safe hands' only the Soul gives you that freedom.

Man wants to be free again, he has to work for it.

And I have come with the Message, 'Call your name', be with your Soul.

And your Soul will be able to communicate with which ever Soul you want to communicate without any electronic waves or any form of waves.

That is Soul talk.

Soul communication.

Soul activity.

Soul sensing.

Soul Love.
 Soul Truth.
 Soul Righteousness.
 And the glimpse of 'G' will come before the
 Soul appears in any form that He is in.
 Whether it takes His voice or any other Form
 that it wants to take.
 Whether the body reaction, that is the Truth.
 Messages will come from the Souls but it will
 be full of Love Messages.
 To show you how close One is.
 If you treat the Soul as a Father, it becomes a
 Father.
 As a Mother, it becomes a Mother.
 As a husband, it becomes a husband.
 As a wife, it becomes a wife.
 As a daughter, it becomes a daughter.
 As a son, it becomes a son.
 As a friend, it becomes a friend.
 As a grandparents, it becomes a
 grandparents.
 As a grandchildren, it becomes a
 grandchildren.
 And the expression will be of Love too giving
 you the comfort that you are wanted.
 You are a darling.
 You are a sweetheart.
 You are the Premi.
 You are a sayang.
 And it goes on, My children.

That is how sometimes you are addressed too,
 little ABC.
 The word little is not just little.
 It is full of Love that flows.
 Understand that.
 It is 'G' who created a Form for the Soul or
 Atma.
 It doesn't mean the Soul looks like that.
 It is just to show that the 'Nine Powers' are
 within, nothing else.
 It belongs to no religions.
 For the religions have to be compared with the
 beautiful garden, garden where all the different
 flowers living together making the place so
 beautiful and nice, so that Earth is understood
 in the best possible way.

For Man cannot just be given one plant, and
 say, 'This is the plant', he will not be happy.
 He wants to see the different colors too.

He wants to see them grow tall, grow short,
 grow on the flat part on the ground.
 Let there be no greenery on the ground itself,
 there will be creepers.
 Let the growth go within the ground and bring
 out vegetables that he can eat.
 It must be of different nature, so that he loves
 to enjoy.

That is how, religion is too.
 Yes, My children.
 Respect all religions.
 Understand all religions.
 It's very important.
 For they speak of the Truth only.
 Truth is nothing but Love.
 And to find the Love, Truth, there must be
 Righteousness.
 My Message comes to all of you in different
 forms.
 When I want something to leave, when
 someone has taken a Soul and he makes the
 Soul to act in the way he wants, that is where
 a 'witch-craft' comes in, a 'witch' comes in, or a
 'bomoh' in one language.
 It all depends how Man wants to treat a Soul
 that he feels that he has come in a command
 over that Soul.
 And when that has to be removed, it has to be
 removed in the negative way of thinking.

The Divine allows everything to take place, My
 children.
 The comfort and discomfort there.
 The positive and the negative, according to
 human beings, they say positive, the negative,
 the opposites, everything must exist.
 It is only then everything is understood well.
 Without sound, you can't understand silence.
 Without silence, you can't understand sound.
 Without brightness, there is no sight, My child.
 So to know brightness, you must know
 darkness.
 And if you do not know darkness, you will not
 know what is brightness.
 Difficult to understand, but that is the Truth.

I can send any Message that I want in any
 form you want, even though you feel that you
 human beings have developed all these
 wonderful communication machines.
 The most important communication machine
 that is there is a human brain.
 Everything is there.
 Whatever was in the Universe, is there.
 Whatever is in the Universe is there in your
 brain.
 And whatever will come into the Universe is
 also again in the brain.

It is with whatever that is there on Divine
 Mother Earth, everything has been created,
 My children.
 So, don't you think if you take a little of Earth,
 little Air, everything, and put it into a form, in a
 a machine and you show a beautiful mango in
 it, and you say, 'I want this mango'.
 And there you are, by touching the right
 button, the mango comes out.

Because whatever is in this mango is all there.
Because the mango came from the plant being
planted on Earth and it is growing.
Where is it growing?
In the Air.

That means there is something in the Air that
gets it mixed and then makes the leaves come
and then it makes the branches to come and
there you are the fruit comes.
Now, don't think, if you wish to shorten the
Time, you just have to take the mango, and
show it to a machine that can make it and it is
made into a mango.

And if you think you can put it into the machine
and make it, don't you think if your five (5)
senses, even they concentrate on Earth,
Water, Fire, Air and Space, wouldn't they get
whatever you want on Divine Mother Earth.

Everything, whatever food or fish, or what you
want, you can create it.

Yes, My children.

It was there but Man lost that Power of
creating these things.

And it started falling backwards.

Today, he has lost all these Powers, except to
see a distance that he can see, a sound that
he can hear, a smell that he can smell, a taste
that he can taste, and whatever is nearby that
he can touch.

That's all.

Before, he may not go near you, little ABC.

He has to just say 'that' and he is already
feeling you.

That's the Truth.

Like how I have given you the Power to
Remember.

It's not there fully yet, but it will be there fully
very soon.

Where every word I speak, you will speak the
same words.

For it will go into you through your Soul.

Divine blessing, My children.

Divine blessing.

Divine blessing.

This is a very highly important Prayer.

Anandam (Blessings).
