

*You Have To Learn To Talk Soul To Soul,  
So That Wherever You May Come From,  
You Can Always Talk To The Souls That  
Are On Divine Mother Earth!*

Divine blessing.

The Souls who belong to Divine Mother Earth and the Souls who have come from the different parts of the Universe, for all of you are One, for you talk the Soul language.

For you have come from the Divine, thus all of you are also the Divine.

Whether you are called Atma, Soul, Jiwa or the Life-Force, everything means the same in different languages.

Souls, you must understand when you are on Divine Mother Earth you have to follow the rules and regulations of how Divine Mother Earth and Mother Nature want you to be when you are in or on her.

It is not right for you who come from outer part of Divine Mother Earth to bring along with you whatever you think is good for you, but you must always understand what is good for you there is not good for the different species that live on Divine Mother Earth or in Her.

All of you must understand, you may be superior to the beings that live on Divine Mother Earth, you may be inferior to the beings that live on Mother Earth, but at the same time all of you have come to find out what is happening to Divine Mother Earth!

What species are there on Mother Earth?

Who are these human beings, who claim that they are the highest species to live on Divine Mother Earth?

Looking at how they have developed, you will see different developments taking place in different parts of Divine Mother Earth.

Mother Earth's structure is changing.

Where there were hills, they have been cut down by human beings, they have built the residential and manufacturing plants too. Where the water was running by the river, now they have dams built, so that they hold the water, so that they can make use of this water at the later time whenever they need it.

They have been many dams that have been built where electricity is being produced.

There are other places where oil and coal or other forms of fuel is being used to manufacture electricity which is very interesting to you, because electricity is nothing but Fire, Energy.

All of you who have come, you bring your UFOs, that is the vehicles that you use to come all the way from your Planets to Divine Mother Earth, and they need to be energized, and you circulate around these 'Power Houses', and gain the Energy.

You are most welcomed.

But do not disturb.

Take part with the human beings but the language will be difficult to understand and no one can understand your language too.

But you must devise away, of understanding and coming to terms with Mankind and all other species on Divine Mother Earth.

Do not wipe away any of the species with the diseases that you may bring or with the abnormalities that you may bring and you may create more abnormalities to the human beings themselves.

You can move along with the human beings in their form but be careful, you are not the Souls or right Souls to be in that human being.

You have to be careful, because the human Mind works in a different way.

You may think that with your Soul within the human body that you will be able to do whatever you want.

No, My Souls that is not the way, because unless you are born as a human being and then you grow up gradually then the Mind accepts you.

But you have come in when the Soul of that Physical-Form leaves for a short reason that we do not know then you get into that human form and you start behaving like a human being.

Today, you may behave for a couple of months, you may not be recognized but the Time will come when you will start making big mistakes and then you will be identified too.

Be careful, be with us.

We want you to come to Divine Mother Earth.

Look at the progress that Mother Earth has done and how Mother Earth is living.

Today you see how the weathers are changing and these weather changes have been brought by all of you who come from different parts of the Universe.

You come so fast.

You bring about movement of the Air and Space which does not move to that great extend or measure that is moving today because of your presence.

Your vehicles are too powerful, they come too fast, but then you are able to de-materialize and materialize Yourselves wherever you want.

But being born on Divine Mother Earth of more of earth in human beings or all the species, we have a form, we have to keep to this form, we can't change our forms.

**You have to learn to talk Soul to Soul, so that wherever you may come from, you can always talk to the Souls that are on Divine Mother Earth.**

**You all must understand every Planet in the Universe has a fix number of the Souls within the gravitational pull of your Planet.**

**Maybe in your Planet where there is no gravitational pull but there is some other form of keeping you together in that Planet, it must be accepted.**

**Whatever is on Earth cannot be true to your Planet.**

**Your Planet will be full of vacuums and you can live, we can't.**

You may not have the five (5) elements that Divine Mother Earth has.

You may have something different.

You may have more elements.

You may have less elements, or you may not have elements at all, and you may have everything, is nothing but the vacuum or the movement of light or the movement of waves which could be electronics, which could be any other form of waves.

We are yet to find out.

I am only talking on behalf of Divine Mother Earth, though I know what is happening in your Planet too.

When you come do not cause the earthquakes and volcanos and wild-fires, floods all over the country, all over the World, or when we call World we say Earth.

Today, you are causing tsunamis, you are causing Earth movement which are beyond human imagination that is the word to be used.

We call destruction when you hurt Mankind's places of staying or wherever Mankind is doing some development.

When it happens in a desert or in the mountains, the jungle, human beings are not bothered at all, for they feel only what belongs to them must be protected, for human beings on Divine Mother Earth have become very greedy, their ego is beyond their own measure.

They hate each other.

They are jealous.

They get angry for no reasons.

They want everything.

Today, they try to claim even other human beings to be theirs.

That is the World you live in.

And everything that human beings look forward on Divine Mother Earth is money, is wealth, is property.

That's all they are looking for, My children.

The greed has grown to such an extent that they are unable to control themselves.

They start cheating.

They take big bribes.

They con people.

These are small words that I am using, there are worse words that can be used to describe human beings of today and the human beings of the future.

We have to bring an end to such behavior of human beings.

I want all of you who are here, for this Platform has been constructed or this Place of Retreat has been constructed for you to come and enjoy the facilities that we can provide here.

We know, we can't give you anything that is found on Divine Mother Earth to quench your thirst for we do not know whether you have thirst at all or you have a digestive system that has to be fed.

You may just live on the Air that your breathe that we human beings breathe.

Yes, that may be giving you all the nutrition you want.

You may live on the Energies that are produced by us in our Power Stations, we call it 'electricity'.

You may like the sunshine and maybe the Sun's rays may give you that Energy that you need to live.

It all depends from where you have come.

Grow with us.

We want you to influence the Souls of human beings on Earth and make them understand that 'race' and 'religion' must be wiped away and they must live as 'One Mankind'.

We want you to help to bring about a better human being who understand each other where Mankind can grow with Love, Truth and Righteousness.

All of you I beg, I pray to you and I welcome you to help Me to solve this problem for I want Mankind to live with their Atma or Soul or Jiwa or the Life-Force.

I need help and the only help that I can depend now is not the human beings because they do not live with their Soul, they have forgotten them, they do not know where their Soul is, they don't even recognize them.

I want them to call their name so that the Soul remembers and comes back and remains with them, though the Soul is within them there but they do not know that there is a Soul within them.

It is very sad but that is the Truth.

I have to request, Souls you have come from outside Divine Mother Earth to help Me for you have not taken a form into any other species. Some of you by mistake you have taken for reasons I do not know but others who have not taken a form, who are willing and who will go back to their place that they have come from; please, help Me to talk to the Souls of the human being.

I want them to understand there are human values that must be upheld at all times. They must learn to appreciate that there is a Life-Force called Soul or Atma within them. Their Mind must recognize them. They must know that they must propagate the next generation. They must know that there is an instinct within them that gives them the knowledge that they are human beings. They must have emotions and they must recognize other people's down-falls or fears that are caused to others or the happiness or satisfaction that the others have, they too can have it. They must take part in the body language of the others and in the language of others.

They must try to meet each other and get the warmth and the Energy that can be got from the others to themselves and they too part their Energy to others too. They must have a feeling, a feeling to everyone, so that they have tears in their eyes too. They know what is bad, what is good, what is victory, what is success, and what is defeat. And they must live together.

They must understand the sadness of one passing away or meeting an accident or getting into a problem and how they can pull the person out of it and give them comfort, make them happy. These feelings must come into them. There is an intuition within them.

All human beings when they know that there is something that is going to take place, they must take the necessary precaution or the necessary steps, they must move forward to meet that intuition of theirs and be successful in Life.

They must always be with the smile and laughter and be happy. Look around, make others laugh too, so that they too can laugh. All these are very important but human race has forgotten.

I want them to live with Love, Truth and Righteousness. I need all your help too. And I will see that when you leave, you get all what you need for the Planets from where you have come from or the Universal-Forms that you have come from. It will be given to you. No one knows My strength and no one will know My strength. Divine blessings, My Souls. Divine blessings. Divine blessings.

To you little ABC, you do not know what are doing My child. You may think you have come to the Retreat Place or the Platform where the Universal Souls come to rest. It is for them this has been built not for human beings not for any species that live on Divine Mother Earth. The same way that the Platform with the eye that you built in your country called Bosnia will be a place where they will all go to see the eye, to understand why the Platform was built in a place where there is a Valley of Pyramids because many of them who have come, they all were there when the Pyramids were built and even before that.

They know how Divine Mother Earth was bare without anything, then how the trees grew, how the different species started coming about, how the oceans came, how the mountains came, how the continents started dividing, how the land-mass broke away from each other and formed their own islands. The whole land-mass is an island, My children. It is all surrounded by Water. Don't think there is only Water in the ocean, there is Water everywhere in the Space, in the Air. You've done the Wisdom Book very well, well written. Complete more of the Books that will come. There will be long Prayers about the Souls that have come from outside Divine Mother Earth. They all must be respected at all times. They will come to you and they will give you the strength that you need. They will give you the beauty that you think you have lost. They will give you the wealth that you need. You may think you may have not be rewarded, the reward comes and the later time, My child. Everything comes, nothing is forgotten. Everything is remembered and at the right time the reward is given. Anandam (*Blessings*).
