

I Know All Of You Souls!

Divine blessing, Souls.

You have come from other Universal-Forms.

You have come to see Divine Mother Earth.

Many of you would have come many a times in the Past.

You may be very familiar with Divine Mother Earth and you may have gone right into the center of Divine Mother Earth too, living there in comfort searching for the Energy that you need to live or you are looking for some Energy Form that can be taken to the Planets that you have come from and make use of them in your Planet, for it is not available there.

In the same way you have brought many things from there to Divine Mother Earth.

Mankind on Divine Mother Earth, they are unaware of your coming and going.

So, please identify Yourself.

Let there be an understanding between the human species that live on Divine Mother Earth and Yourself.

Others who have come with the intentions of finding a better place to live than your own, you too are most welcomed but at the same time do not disturb the way the species on Divine Mother Earth, they live and they too want to progress on their own without any outside interference.

You may come, you may work together with species on Divine Mother Earth or you may work on your own but at all times please do remember, let there be a peace, let there be an understanding, a Spiritual understanding with respect to one another at all times without hurting the other in any way, so that co-existence is possible; and whenever there is a cooperation needed please do join hands and do it for the betterment of Divine Mother Earth. There are many of you who have come, you want to get into the different species, you want to imitate the species too, that includes the human species.

You have to be very careful.

Every species that live on Divine Mother Earth they have formed themselves to be with Divine Mother Earth and Mother Nature in the best possible combination.

But if you try to get into them and try to imitate them you will not be able to do so for it is very difficult to imitate at all times.

Imitating another species even the humans want to imitate you, will not be possible.

But an understanding of both the species you are in and the species of Divine Mother Earth, if there is a cooperation, you can live in your Form.

Let the species on Earth live in their own Form, and you can coordinate with each other and see how you both can understand each other and bring about a mixture of both the species to the best interest of your Planet as well as Divine Mother Earth.

That will be a better way of cooperation, a better way of imitating.

My children, I call you 'children', My Souls, all of you know Me very well.

I know what is happening in your Universal-Form like I know what is happening here but I do not play a role of bias, when I am on Divine Mother Earth, I keep to Myself to Divine Mother Earth.

I know all of you Souls.

When you are in another Universal-Form, you have to obey the laws of the Nature of that place, so that you live very comfortably and grow in the right Direction.

You are so advanced, that is why you are able to come in your own vehicles to Divine Mother Earth.

And when you come, you come in such a high speed making use of Air and Space, and you cause tremendous uncomfortable feeling to the species of Divine Mother Earth.

No other species complain, but it is the human species who have the sense of emotion and feeling and judgment, who are able to understand right and wrong, who are able to take part in discussions and correct themselves and to see what is good to be accepted, what is bad to be kept aside; but today the Mankind has moved to the opposite direction where they want to be and they want to be right.

They want everything in an instant.

They want to be rich but to become rich and to become wealthy, they make use of their senses which bring about anger, hatred, jealousy, greed and ego.

With their ego, they think they can do whatever they want.

They do not know their own strength because the ego takes them in a different direction and gives them a false image of Themselves.

That is what you are seeing of Mankind today on Divine Mother Earth.

I have even in My Last Prayer told to you requesting you to correct the thinking power of Mankind where they talk about religion and race and bring about the better understanding of these two subjects.

So that they do not misunderstand each other and they live as good brothers and sisters.

Understanding each other's race and religion.

And only look to the advancement of Themselves to the best interest of the human species, and to look after all other species that are on Divine Mother Earth and in Her, and help them to be there so that everyone can coexist.

And even you who have come from other Universal-Forms, you too can stay with us.

Be with the human species and all other species too, cooperate with them, take them to your place where you come from but see that, they are able to live in your place in the most comfortable way that they are living on Divine Mother Earth.

If you have all that means with you in your flying vehicles please do take them so that they can see what you have in your place and they may even be able to help you to develop in a faster way and to understand the way you live and the way they live on Divine Mother Earth.

Dear Divine Souls who have come, do not cause harm to Mother Nature, the way you come you can may make things disappear and appear at your own will.

You can take them into your vehicle, make them as small as possible and you can make them as big as possible too, but at the same time please do not disturb the weather of Divine Mother Earth.

You have changed the weather pattern of the whole of Divine Mother Earth.

Places which are not hot, now the human beings feel the heat.

Place where hail-stones shouldn't fall, you bring about storms of hail-stones.

You bring the volcanic eruptions.

Your bring earthquakes with great magnitude.

All these natural disasters come about on Divine Mother Earth.

It is all the way that you come and you go.

Please be gentle, when you come and you go.

Do not tip the balance of Divine Mother Earth for then she will lose the Direction, the Speed and Time of Her traveling around the Sun and do not disturb the Moon too for the Moon keeps rotating around Divine Mother Earth.

Please do come.

Please help us to find whatever we loose and bring about greater progress to Divine Mother Earth.

We need food for the millions of the increasing population that is taking place on Divine Mother Earth.

We want the people to live happily with one another.

Remove away all the weapons of destruction that Man has brought about.

And put into them weapons that will not destroy but that will add to the progress of Divine Mother Earth's Nature.

Our Nature has been disturbed.

We want these 'atoms' that are used in these weapons to change, to become fertilizers, to bring about a better growth that can be felt all over Divine Mother Earth.

Let the deserts have trees and ponds and plants and let animals and birds and all other species live on them.

Let the oceans develop into greater places of living, not only for the fishes and other forms of Life that live in these waters but allow other species too to build whatever they want for they stay too in water.

Bring about this understanding of how to live in water and how to live in the Airspace that is on Divine Mother Earth.

Show us how to construct living quarters and gardens in the Space itself, limiting itself to the gravitational pull of Divine Mother Earth.

We do not want to go outside into Space, we want to be within, show us whether this is possible; and if it is possible, please do bring about these changes and give all the species good health which they all need.

Today, they are so many diseases which are not curable, please help in curing these diseases.

Give Mankind and all other species the strength to live longer, let Mankind live hundred and twenty-one (121) years that has been given to them when the Divine created them on Divine Mother Earth.

Let all other species too have a good Life and they are able to think in the right Direction, does they do not harm each other; and let them all progress in the best way possible.

Let all the electronic devices that are being used not send electronic waves in Space, let all these electronic waves be kept in a place or totally destroyed so that it doesn't harm the human species or other species at the later time; because all these waves are all the time floating in the Air, and Man has to breathe, he has to eat, he has to drink, he has to propagate the next generation.

All these should not be affected.

All the systems within every Form that an Atma or Soul has taken must all function in the right way so that health is kept.

Health is very important, My Souls, for the species that you see on Divine Mother Earth for their body must function in the right way, for the different systems.

Lets take the human body; there are so many systems, they must function together at all times, recognizing each other's duty to the best possible way that they can all work together and give a better Life to the human Physical-Form.

Teach Mankind to understand religion, bring about the Spiritual understanding of Themselves, so that they don't misunderstand what is taught by different religions; for all the religions on Divine Mother Earth teaches the same subject; teaches Mankind to live with Love, Truth and Righteousness.

But Mankind have changed the interpretation of all these good teachings to suit them, so that that they start claiming, Mine is better than Yours; and they start insulting each other without understanding their own religion to the best of knowledge; and no religion criticizes the other, it only praises the other.

That is the way the religions have been brought about for the benefit of those people who lived around in that area where the religion started to grow.

You Highly Developed Souls who have come all the way here, you have the Power to teach Mankind to live in a better way, and you too can benefit when they live with comfort and with progress at all times.

You are most welcomed.

Divine blessing to all of You.

Please, stay and enjoy your stay on Divine Mother Earth.

We all welcome you.

We will give you all that you want, the Energy that you need to look after Yourself at all times.

Blessings.

Blessings.

Blessings.
