

***Then, Suddenly You See A Light Coming,
That Is The Light Of The Divine!***

Then, you must have the patience to wait and wait and wait and in the waiting Time from the Time you have started having Faith, there is a Time in between, that is the preparation Time, My child, where you prepare Yourself, where you put in effort, a lot of effort you have to make then finally you see the Light coming out to make you where you are in the jungle with all the creepers, with the thorns and with the muddy surface where your leg gets stuck.

Then suddenly you see a Light coming, that is the Light of the Divine.

Then you still have to keep walking, the Divine does not show you the path immediately. As you keep walking more Lights are seen through the branches of the tree where the leaves keep blowing from side to side and allows you to get the glimpse of that sun-shine.

Then, after some time that is the test that you undergo where the Divine puts many tests in front of you, the tests are like the obstacles and you have to find the way to go through those obstacles and finally you see the sun shining bright in front of you when you are out of the forest.

Those are the difficulties, My son, My child, before success is given to you, before happiness comes to you, before you are able now to help others to live the comfortable Life of the other.

Divine blessing, My child.

Divine blessing.

Divine blessing.
